

NEW

Extract system ensuring a **continuous exhausting of air within residential homes** through the extract ports located in several rooms (kitchens, toilets, bathrooms, etc) and air inlets located in the main rooms (utility, bedrooms, etc) allowing the input of fresh air. Equipped with a centrifugal fan and fitted with a two speed, low energy consumption, 230V-50Hz motor, IP44, class B insulation. The Venturia extract system is designed for **continuous operation**.

Fitted with a two speed switch controlling the maximum airflow performance in the kitchen.

Continuous fresh air

The Venturia extract system ensures the continuous air renewal in residential houses through the extract ports located in several rooms (kitchen, toilets, bathrooms) and air inlets located in the main rooms (utility, bedrooms).

Remote location

Three ant vibration hanging cords enabling to hang the unit in the attic of a house or in false ceilings reducing the radiated noise

Standard version

- 4 exhaust valves of $\varnothing 80$ mm for toilets and bathrooms, removable by means of a quarter turn and fitted with two ring clamps allowing a quick and watertight installation of the ducts without tools and clamps. The exhaust valves of $\varnothing 80$ mm are regulated automatically: 2 of $15 \text{ m}^3/\text{h}$ and 2 of $30 \text{ m}^3/\text{h}$.
- Exhaust automatically regulated valves for kitchen of $\varnothing 125$ mm ($45 \text{ m}^3/\text{h}$ and $135 \text{ m}^3/\text{h}$), with 2 ring clamps for a fast installation.
- Discharge port of $\varnothing 125$ mm allowing to expel the exhaust air to the outside.
- Terminal box fitted
- Two plastic covers to block the exhaust valves that are not operating.

Easy maintenance

3 opening and closing flanges allowing the dismantling of the assembly motor-extractor without the need of disconnecting the ducts and the exhaust valves

Technical characteristics

Model	Voltage (r.p.m.)	Power absorbed at free discharge (W)	Absorbed current (A)
VENTURIA-SF	230	65/24	0,3/0,2
VENTURIA-SF KIT	230	65/24	0,3/0,2

Dimensions (mm)

Accessories

Model	Ø (mm)
Exhaust valve BOAP-80	80
Exhaust valve BOAP-125	125
Switch VMC 2 V	

KIT VENTURIA

Fitted with the Venturia extract system, 2 exhaust valves designed for bathrooms of Ø 80 mm, 1 exhaust valve for kitchens of Ø 125 mm, and a 2 speed switch.
